23 March 1956

MEMORANDUM FOR: AD/CI

SUBJECT : Retention of SI Clearances on Project Personnel  
Going Overseas

1. On or about 1 May 1956, we expect to have four Project personnel going overseas on PCS. For operational reasons, it will be necessary that they retain their SI clearances while overseas. It is expected that they will be the only individuals to go overseas on PCS at this time; at a future date we will have additional personnel, probably totalling a dozen before the end of the year. These persons will be going to England, although occasionally may be required to travel from England into Europe and perhaps the Near East.

2. Your approval is requested that the following individuals may retain their SI clearances while overseas:

25X1A

3. I would appreciate your advice on the conduct of their contacts while in England. As far as I can now determine, there will be no need for them to discuss SI matters, except upon prior approval of an individual by name by you. However, I believe that it would be advantageous for them to be in contact with an Agency representative at the [redacted] if any such person is cleared.
